KnowledgeLake

INTELLIGENT CONTENT AUTOMATION

Automate Document Capture and Classification

Powered by patent-pending, machine-learning technology, document classification and capture reach new levels of process automation with the quickest ROI.

- Any content, from any source
- Improve accuracy and performance with machine learning-powered, automated document classification and data extraction.
- Automatically classify documents with KnowledgeLake's ability to "learn" a new document type from just a few samples.
- Save paper and electronic documents to Microsoft Azure, Teams, or SharePoint from anywhere.

Automate Manual Tasks

Process unstructured information at the speed it's received. Combine RPA with workflow and suddenly there's no process or system you can't integrate.

- Free up employees to provide value for the organization and customers
- Integrate separate business systems - without APIs – easily and quickly
- Reduce human transactional costs, improve data entry accuracy, and increase transaction throughput
- Boost your important workflows with RPA bots

Automate Storage of Content in the Cloud

Go from needless siloes to context- and purpose-driven content management in the cloud. Connect to any repository or use cloud storage and own your own data.

- Leverage your existing Microsoft investment in Azure, Teams, and SharePoint
- Find documents quickly, wherever they are stored, using intelligent data
- Sort and filter data to effortlessly retrieve the correct document
- Scale simply for any volume or process

Intelligently Capture
Any Content, Any Source

Any Content		Any Source
Paper Documents	Mobile Content	Electronic Content

Common Organizational Challenges KnowledgeLake Helps Solve

- Too Many Entry Points for Content
- Painful Manual Data Entry
- Insufficient File Security
- Inability to Find Documents
- Lack of Integration with Systems and Processes
- End User Errors

KnowledgeLake
Intelligent Content Automation

Industry Solutions

FINANCIAL SERVICES
Integrate with your existing financial services infrastructure and reduce or even eliminate issues associated with paper documents, such as contracts, client account information and regulatory reports

RETAIL
Enable automated data entry into your retail system to drive costs out of your organization

GOVERNMENT AGENCIES
Manage the lifecycle of documents, compliance requirements, records management and security

HIGHER EDUCATION
Streamline routines such as: advancement, transcript processing, financial aid, human resources and accounting

INSURANCE
Eliminate duplicate data entry and optimize data capture through OCR, data validation and integration with third party systems

TRANSPORTATION
Reduce paperwork, automate shipping and delivery processes and simplify logistics and scheduling

Department Solutions

ACCOUNTS PAYABLE
Increase operational efficiency, and save time and money, by automating and streamlining the handling of accounts payable documents

NEW ACCOUNT SETUP
Ensure protection of content and faster collaboration on paper-intensive documents that have a long life-cycle

HUMAN RESOURCES
Reduce operating costs, increase productivity and enhance employee satisfaction by streamlining the processing and approval of human resource business transactions

CLAIMS PROCESSING
Reduce bottlenecks and dramatically decrease the time and errors associated with traditional document claims processing

JOIN US: PARTNER WITH KNOWLEDGELAKE

A trusted name in the content management space, KnowledgeLake helps enhance our partners' ability to intelligently automate document-driven processes.

KnowledgeLake seeks out talented, trusted organizations who share our passion for delivering modern solutions to support our clients' evolving needs. Working with an ecosystem of diverse partners helps KnowledgeLake transform the way organizations tackle their document processing and management challenges. When joining forces with these best-in-class companies, we not only offer incredible value but empower enterprises to solve real business problems while amplifying their productivity.
